PROJECTS

Clotes Selling Ecommerce Website   {self project}

- A React-centric web application, with a strong focus on front-end features and user interface design. Props are used to pass data from parent components to child components. React 16.8, hooks are functions that let you "hook into" React state and lifecycle features in function components.
- Common hooks include useState, useEffect, useContext, and more.

Social Media Website

- A Next js project just like any other social media websites. the user can post the images and like, share, and comment in it .
- Utilize CSS framework (Bootstrap) solutions for styling the user interface.
- For user authentication - Implement user authentication and authorization using technologies like Firebase Authentication, OAuth, or JWT (JSON Web Tokens).
- Api -Create API endpoints within the Next.js application to communicate with the backend server. These endpoints can be used for data retrieval, user actions, and interactions.

SKILLS

Frontend Techonlogies - Reactjs, NextJs, Html, Css, JavaScript, Jquery, Bootstrap, Tailwind css, MERN stack .

Backend Techonlogies - Nodejs, Express , Php, MongoDB, MySql.

Key Skills - C, C++ , DSA {C++} , GIT , Git Repository .
